

5th Grade– Avoid the Summer Slide

ESSENTIAL SKILLS FOR INCOMING 5th GRADERS

- Multiplication and division facts through 12
- Long division (dividing by a single-digit number)
- Fluently add and subtract multi-digit numbers with regrouping
- Fraction number sense
 - Understand and show representations of basic fractions ($\frac{1}{2}$, $\frac{1}{4}$, $\frac{1}{3}$, $\frac{2}{3}$, $\frac{3}{4}$)
 - Compare 2 fractions and tell which one is greater
 - Find equivalent fractions ($\frac{2}{4}$ is $\frac{1}{2}$, $\frac{4}{6}$ is $\frac{2}{3}$)
- Write sentences using correct capitalization and punctuation.
- Write 3 paragraphs, having an introduction, body, and conclusion

WAYS TO HELP YOUR CHILD AT HOME THIS SUMMER

- Students can use the “Big Brainz” program at home to practice math facts. Daily practice is recommended.
- Interact with fractions in real life
 - Splitting a whole into pieces (pizza, cake, etc.)
 - Let your child get involved in cooking. Cooking measurements are a great way to develop fraction number sense!
- Write in a journal
- Imagine Reading: <https://app.imaginelearning.com/?sitecode=4900810>
- Participate in the summer reading program at our school or at the local library
- IXL math practice: <https://www.ixl.com/signin/lakeviewprovo>
- Practice writing lessons on write.utahcompose.com
