

Minutes September 13, 2017

Robyn came in and gave us a report of how use we get from IXL. It costs us about 42 hundred \$ to purchase IXL every year. The response from the teachers was in favor of keeping on with it. It helps them free up time so teacher can work one on one with struggling students. Also the students work on the level of math they are on.

Report from city engineer, Shane Winters. We did not meet the requirements to warrant the flashing lights with the reduced speed of 20 MPH. Because the Provo High is coming next year we will probably get them next year. Long discussion on safety issues and questions to the engineer.

Mr. Daniels provided us with a picture of the school access safety route which is found in the school's web page and Facebook page. Also report from Mister Daniels of Lakeview students' SAGE test scores. Lakeview the first in Language Arts and Science but second in Math.

We decided to meet at 8:30

October 12th

Jan 11th

March 8th

April 12th
