

January 18th. Welcome everyone.

Mister Daniels gave us a report about student achievements for the year of 2017.

Lakeview first place in Science and third in Math. Lakeview ranks high in schooldigger.com Parents want to bring their children to Lakeview because they like the staff and the good learning atmosphere we have here.

Report from Mister Bringhurst about the Check and Connect. Mister Bringhurst said that they currently are working with 13 students who are at high risks. They contact the parents and let them know how their child is doing at school and also help establish healthy habits for the students. We currently use Dibels, attendance, tardys to measure success. Also understanding patterns of behavior with students and their parents. Families seem uniformed when it comes to understanding school protocol and since some families are non native to Provo, they have a hard time adjusting to our school because of language barrier or cultural differences.

Ideas how to allocate our lad trust money for the 2018-2019 school year. No ideas where presented at this meeting. We will be discussing this at our March meeting

Update in safety- Provo city and Provo school district both will be working on making 1390 north a school zone this year. They plan on starting in May and be done by July of 2018.

Lavdie will write up a text and send it to M. Jarvie to make a refrigerator magnet with important info from the school. This is to go out to all Lakview families.

Our next meeting

March 8th @ 8:30 am

and

April 19th @ 8:30 am

If council members would keep in mind to invite non natives to join the community council in the future, Lavdie is interested in having them be a part of all of us.
