

January 18th, 2019

In attendance: Mister Barker, Lavdie, David, Debra, Mrs. Bueno, Mrs. Moser.

Mister Barker started the meeting by showing us a map of the current proposal for the parking lot changes. The district will work on it during Summer break and have it ready for us for the next academic year.

Mister Barker also talked about report of how Lakeview is doing. Over all Lakeview is one of the best schools in the city. Jamie came in and also discussed how Lakeview is utilizing the aides paid for with Trustlands money. The new intervention program is running well and targeting specific needs of the students.

Mister Barker told us of a company that will come and train the recess aids how to help children during recess. They will teach the aids to play games with the children and help them play together and even provide some equipment. This helps some kids who might be left with no friends, choose an activity that they might like.

David suggested some games that help with the mindset.

Next meeting - How about **February 22nd at 12:00?**
