

Community Council Minutes from 11/8/19

- Welcome

- Motion was made and passed to Adopt the Rules and Order

- We had a discussion about new school safety procedures at the school. It was reported that the school is seeing success with the dismissal procedure. It took some adjustment but now that routines are in place, it is working well. Parents are also reporting that the new driveway and drop off are much improved over last year.

-Mr. Barker reported that the school has contracted with Netsmartz to provide internet safety training for the school. They have used this company for several years and they do a good job.

-A copy of the TSSP was given to each member to look at and see what the school is looking to improve.

Reminder that our next meeting will be Jan 10th at 9:00am
